Let's Count & Explore

Early Math Play Cards

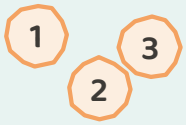

6 everyday math moments, each tagged with the specific skill it builds.

This belongs to: _____

Pick a card based on what's happening today — not a checklist to complete. Each one builds a different piece of early math.

A menu to rotate through, not a checklist — any card, any order, any day.

Little counters, big ideas.

None of this needs to be "math time" — it fits into setting the table, walking, and folding laundry.

The skill-building comes from everyday moments, not from flashcards.
